

## GROCERY ENERGY SAVINGS PROGRAM

# Helping Grocers See More Green

**“We were skeptical when they first talked about energy efficiency. We’re now saving around \$5,000 a month.”**

**Martin and Jim Cox, Cox Foods Group**

The Grocery Energy Savings Program is available to any grocery store located in Appalachian Kentucky that has the desire to reduce its energy consumption.

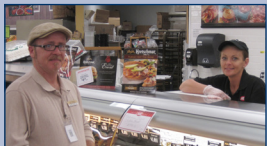

*Since the profit margins of supermarkets are so thin, ENERGY STAR® estimates that one dollar in energy savings is equivalent to increasing sales by \$59!*

MACED is a nonprofit organization that helps community businesses grow, create jobs and thrive in Appalachian Kentucky. To get started on a free assessment for your store, call 859-986-2373.

### More Success Stories

**Jack's IGA** Beattyville, KY  
**\$33,990** savings per year

**Whitley City IGA** Whitley City, KY  
**\$56,700** savings per year

### Three Simple Steps to Save More Green

- 1.** Call MACED at 859-986-2373 for your free on-site energy savings assessment.
- 2.** Review your energy cost savings report with MACED.
- 3.** Choose an energy savings program that's right for you.
